Independent Provider Information Sessions

Tuition: \$5 per person

2 hr sessions

Tuesday, July 19 6-8pm
Thursday, July 21 9-11am
Saturday, July 23 9-11am
Thursday, August 18 9-11am & 6-8pm
Saturday, August 20 9-11am

Program Purpose:

To provide an overview of the conditions, requirements and opportunities for any nurses or STNA's who may be interested in working for themselves by becoming an Independent Provider of home and community based services. This is a 2 hour session designed to inform you about the Independent Provider Course, which will be offered in September and October as a workshop.

Independent Provider Description

Independent provider nurses and nursing assistants provide care to acute and chronically ill medically fragile children and adults who are enrolled in the Ohio Home Care Waiver Program. With 6000+ Independent Providers throughout Ohio, it is easy to see how they can and do play an important role in the delivery of the Ohio Home Care Program. This seminar provides an overview of the qualifications and process for becoming an approved Independent Provider in Ohio and offers participants an opportunity to gain an understanding of the various regulatory, clinical and operational requirements for Ohio's Independent Providers.
